

**Nutrition Seminar (NTR 540)**  
**Wednesdays, 1:25-2:15 (JHB 414)**  
**Beginning September 16, 2009**

Beginning Wednesday, September 16, all Nutrition graduate students and faculty are invited to attend the semester's Nutrition Seminar Series. Faculty and graduate students registered for the course will present seminars this semester.

The format will be the following: Each speaker will present for 20 minutes and then respond to questions from the audience for 15 minutes. At that point the seminar will end and all audience members except students registered for the course will be requested to leave the room. Then, graduate students registered for the course will evaluate the seminar presentation, so that they can develop further their own presentation skills.
